Best value providers

We aspire to keep the defect rates as low as possible and maintain the professionalism in resolving defects if found any. All our team members are committed to constantly upgrade our knowledge and skills to make ourselves the Best value providers in the market.

Our Business

We are a group of committed software engineering professional/engineers, offering world class custom software development service to global clients. We co-develop products/projects for clients around the world.

Our Process

As aspiring Software Craftsmen, we are raising the bar of professional software development by practicing it and helping others learn the craft. Through this work we have come to value:

Not only working software,
but **also well-crafted software**
Not only responding to change,
but **also steadily adding value**
Not only individuals and interactions,
but also **a community of professionals**
Not only customer collaboration,
but **also productive partnerships**

That is, in pursuit of the items on the left we have found the items on the right to be indispensable.

Quality

We are practicing clean coding principles, and Test Driven development practices. We adopt best practices in design, development, testing, deployment and customer support.

R&D

We are constantly investing our time and energy in process improvement and invest in R&D for improving our way of software development, by applying engineering principles, we are associating with Computer Society of India, IEEE, and other premier institution and constantly update our knowledge based and adopt best practices.

Corporate Culture

We have an open culture which is based on Indo- European style where it's a perfect place for innovation to happen. The German orderliness, cleanliness, and reliability coupled with creative, spontaneous and hardworking Indian mindset creates a great place to work, where innovation can flourish.

Customer support

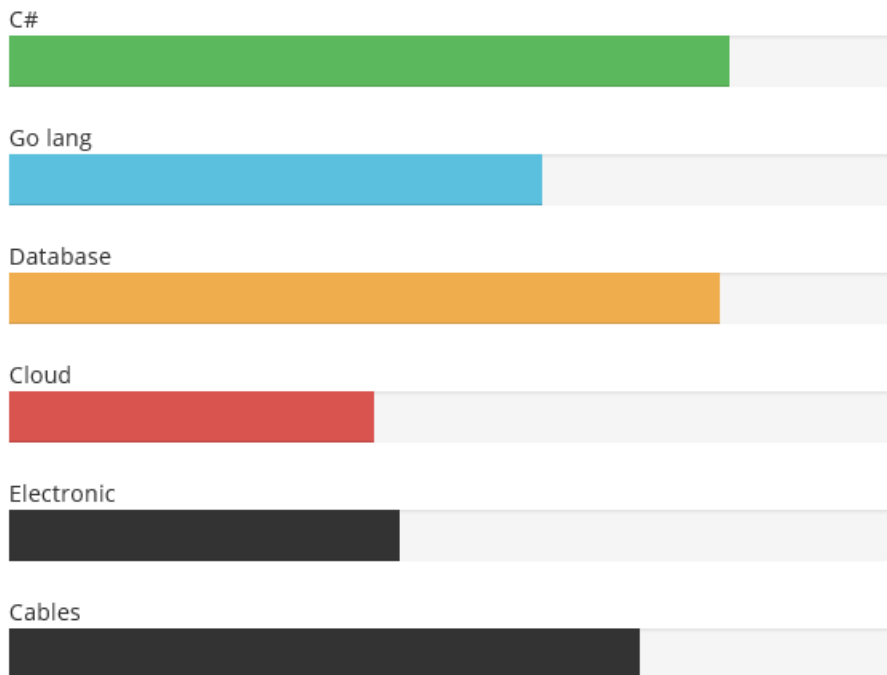

We put our customer needs first and provide outstanding value. For all our customers we will exceed their expectation and set new standards.

Previous projects

We have provided software development services for digital industrial Inkjet printers for our customer in Germany. We provided the following Software services to our Clients. Palis 750, MP7, Palis Proof, and Palis 2250 Test System.

We deliver creative and efficient workflow solutions, frameworks and utilities for Industrial machines.

Skills

Team

Senior Software Engineer

Senior Software Engineer

Junior Software Engineer

Our Team Profile: -

Name	Qualification	Position	Experience	Expertise
Team member 1	MS-Software System Engineering (Germany)	CEO /Technical Director	14+	System design, development, Team Building, Delivery, Marketing and Programming on Microsoft .net C#, Go Lang, Google Cloud, SQL, MongoDB
Team member 2	MS-Electrical Power Engineering (Germany)	Business Operation Manager	14+	Project Management, Import Export, Logistics Management and Finance
Team member 3	BE, MBA-HR	HR/Admin	8+	Human Resource and Office Administration
Team member 4	MCA	Senior Software Engineer	5+	Microsoft .net C#, Go Lang, Google Cloud, Programming, Software Engineering skill, Clean coding, Test Driven Development, Experience in international distributed agile teams, Ability to handle clients on a daily basis.

Team member 5	BE	Senior Software Engineer	8+	Microsoft .net C#, Go Lang, Google Cloud, Programming, Software Engineering skill, SQL Expert and ability to lead teams
Team member 6	MCA	Junior Software Engineer	1+	Creative, Dynamic, hardworking software engineer, Skilled in C# .net, Php, go lang, SQL, MySQL.
Team member 7	BE	Electronics /Cables	10+	PLC, Driver board Electronics/Cables Expert

Build Your Software with Ramarson

Do you have any challenging software or computing needs, we think we can help you out in building the application for Desktop, Web, Mobile and Wearable devices.

Choose Ramarson

For all you Information Technology and computing needs, we Ramarson can help and make your work simplified, let's make life more intelligent and smarter with our software expertise and knowledge.
